Also, in order to help you get the most out of the complimentary services provided to your company by the Exchange, we ask that you indicate who should be the primary recipients or points of contact for several key Exchange offerings.

We would like to prepare a two-page report to introduce your company to the investment community as a part of your listing. The “New on the Alternext” report is much like a company fact sheet and will contain pertinent financial and fundamental information that the investment community will find useful in learning more about you. Once prepared, we will distribute it electronically to a targeted list of qualified investment professionals.

If you would like to participate in this complimentary service, please provide us with information about the individual that will be available to review and approve the final Report prior to its distribution:
